I. W. W. ATTORNEY SENT DOWN CANYON BY BISBEE CITIZENS

(By Associated Press.)
BISBEE, Ariz., July 31.—Fred P. Moore, a Chicago attorney, was deported from the Warren district last yesterday by deputy sheriffs and is now on his way to Columbus N. M. Governor Campbell telephoned shortly after Moore had left for Douglas in an automobile asking that the Chicago attorney be allowed to stay here. Moore admitted that he was attorney for the I. W. W.

Moore arrived in Bisbee yesterday morning from Phoenix and was said to carry letters from Governor Campbell to Mayor Erickson and Sheriff Wheeler, neither of which he presented.

Moore was allowed to remain in Bisbee throughout the day. He called on several local people, among them being the city police judge. He asked for reasons for the deportation and made general inquiries.

In the afternoon he was asked to come before the investigation committee of the Loyalty League. When he appeared he stated that he had come as attorney for the three Slavonians who owned a restaurant in

HALF A MILLION MILES CAPTURED

(By Associated Press.)
BERLIN, (Via London), July 31.—In its review of the third year of the world war the Tageblatt points out that the armies of Germany and her allies have conquered more than half a million square miles of Entente territory and asserts that the military strength of the Central powers instead of decreasing has increased while that of France has decreased.

The newspaper says the German people have plainly announced its readiness for peace and expresses the common sense and a sincere desire at cessation of hostilities will assert themselves in the ranks of Germany's adversaries.

BABIES MENAGED BY ASPHYXIATION

GERMAN GAS BOMBS COMPEL THE REMOVAL OF CHILDREN

(By Associated Press.)
PARIS, July 31.—Four hundred small children threatened with death by asphyxiating gas bombs dropped by enemy aviators were successfully removed today from a small French town near the firing line to a place of safety by the American Red Cross.

As the German aviators are using gas bombs and because it is impossible to equip children properly with gas masks, it has been considered necessary to take them out of the danger zone. Many mothers who are busy harvesting crops, have been unable to give adequate care to their children and the Red Cross now has temporarily taken them under its control.

Lowell and who were deported July 12. These three men, however, have returned to Bisbee and were allowed to remain. Upon being questioned Moore admitted he was the attorney for the T. W. W. but would not state his exact mission in the Warren district. At the end of the conference he was told that he would oblige the committee by returning at four o'clock.

Mr. Moore failed to return at four o'clock and within a few minutes he was found by deputies. He was invited into a waiting automobile, his effects which were at a hotel, were loaded into the car with him and accompanied by several local men, he was driven to Douglas.

At Douglas Moore was put on board the night train for El Paso and was accompanied as far as Rodeo, N. M. by a deputy.

Between Moore's first and last encounter with the local committee he got into communication with Governor Campbell over the long distance telephone. Governor Campbell a short time after Moore had been taken to Douglas, telephoned the committee stating that Moore should not be removed.

R. R. CONGESTION IS CLEARED UP

(By Associated Press.)
CHICAGO, July 31.—The movement of freight into and through Chicago, which has been impeded since Saturday morning by the strike of switchmen affiliated with the Brotherhood of Railway Trainmen, was resumed on a normal basis yesterday with the settlement of the strike. The men returned to work in the morning, after an all night conference between the general managers of the nineteen roads involved, James Murdoch, vice president of the strikers' brotherhood, and representatives of the three other chief railroad employees' organizations, the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Engineers and the Order of Railway Conductors.

Railroad men declared that any freight congestion due to partial tying up of switching facilities would be cleared without delay.

The settlement lost to the switchmen the chief point for which they were contending—preferential treatment of union members in the employment of new switchmen.

Preferential treatment in the employment of yardmasters is to be settled by a joint board.

RAISING TAXES FOR WAR COSTS

ONE DOLLAR A GALLON ON WHISKY AND 50 CENTS ON BEER

(By Associated Press.)
WASHINGTON, July 31.—Increase of the pending \$1,670,000,000 war tax bill to \$2,008,000,000 was decided on by the senate finance committee today. The increases will be on corporations normal income taxes, incomes of individuals of \$15,000 or over and a further increase of a dollar a gallon on distilled spirits and 50 cents a barrel on beer with other minor tax increases that will make the additional levy.

The committee decided to increase the present 2 per cent normal rate on corporate incomes to 6 per cent as against 4 per cent in the original bill. This is expected to yield \$162,000,000 additional revenue. The increased rates on individual incomes it is estimated will yield \$25,000,000 to \$35,000,000. The additional new levy on excess profits taxes will be agreed upon later. The increase on distilled spirits will add \$90,000,000 revenue and beer \$25,000,000.

WHITE CAPS CO. FILES A SUIT

TEMPORARY INJUNCTION ISSUED YESTERDAY OUT OF DISTRICT COURT

WHICH LOOKS LIKE IT MIGHT BE CAUGHT IN A BAG

(By Associated Press.)
Apparently the turn in the tide of retreat by the Russians in East Galicia is beginning. On several sectors the loyal troops have halted and now are facing the Austro-Germans and offering resistance as best they can with their badly depleted forces.

Although the stands they have made have as yet been unsuccessful in holding back to any great extent the numerically superior Austro-German armies, they serve to show that the spirit of loyalty is still alive in many of the men of General Korniloff's contingents and that it is not their purpose to surrender further terrain without a contest.

One of the main attempts of the Russians to hold back the enemy has been on the heights east of the river Zbrocz, which flows along the border between Galicia and Russia but despite the resistance offered they have been compelled by overwhelming numbers to cede ground to the Austro-Germans who crossed the stream.

The Teutons also have crossed the Galician frontier and now are invading Bukovina by way of Suchawa valley, their immediate objective be-

AIR SUPERIORITY IS GIVEN CREDIT FOR THE MIGHTY SWEEP

(By Associated Press.)
LONDON, July 31.—British troops in conjunction with the French attacked German positions along a wide front north of the river Lys early this morning. The first objectives on the entire front were captured and reports show the allies are making satisfactory progress at all points taking considerable prisoners. In many places they advanced well beyond the first line trenches, and entered the second line. On a twenty mile front, between Dixmude and Boesinghe, the British secured two first line trenches after fighting over the most difficult terrain imaginable.

La Basse was recaptured but the allies found themselves facing a large concentration of German artillery and fresh troops were rushed up.

The allies have complete air superiority.

Entente military officials report that the German morale is not up to the old standard.

Note—This offensive is the culmination of the tremendous bombardment on the Belgian front during the entire week. The intensity of the fire for the demolition of German trenches has been described as the greatest in the history of warfare.

(By Associated Press.)
BRITISH FRONT, July 31.—Three lines of German trenches in Flanders have been captured by the British. Most of the points stormed were between Boesinghe and Warneton.

Late today it was reported that the Germans countered at the point of junction of the British and French forces. The French attacked between Dixmude and Boesinghe, across a marsh, capturing the first to German line. Six Bavarian divisions were withdrawn and replaced due to demoralization by infantry fire. At one point the British charged through their own barrage fire to prevent the escape of fleeing Germans.
